SENATOR WARNER: Mr. President, I move LB 417A be moved back for the specific amendment. What it does, is a portion of the Luedtke amendment sets out a \$4,650,000 appropriation for the year ending June 30, 1971. We have had the problem from time to time of...the only way this can be taken into account is through the route of an express obligation as required by law. There has been difficulty of identifying those or, at least, a refusal to identify those. This will insure that when rates are set next fall the revenue necessary for this construction will be taken into account when rates are set. I would request the bill be returned for specific amendment.

PRESIDENT: Senator Luedtke.

SENATOR LUEDTKE: Mr. President, I agree with Senator Warner. I think this would be very well to have this placed in this bill at this time on this A bill and I would hope that everybody would vote for it so we can get this on its way.

PRESIDENT: The question is, shall the bill be returned for the specific amendment. Record your vote. Record.

CLERK: 33 ayes on the motion to return, Mr. President.

PRESIDENT: Senator Warner.

SENATOR WARNER: Mr. President, I move for the adoption of the amendment.

PRESIDENT: The question is, the adoption of Senator Warner's amendment? Clear the Board please. Record. Record.

CLERK: 26 ayes, 0 nays.

PRESIDENT: The amendment is adopted.

SENATOR WARNER: Mr. President, I move that LB 417A be advanced to E & R.

PRESIDENT: You have heard the motion. Any discussion. The question is the advancement of the bill? All those in favor say aye. Contrary nay. The bill is advanced. We have in the North balcony some students from Senator Kremer's district in Clay Center, Nebraska, some 36 ninth graders. Thank you for coming. We appreciate having student visitors. The Chair recognizes Senator DeCamp.

SENATOR DeCAMP: Mr. President and members of the Legislature, a point of personal privilege and just some information and solicitation of suggestions from you. Senator Curtis' office and the Nebraska Health Department and some Senators, including myself, have been looking into the possibility of having some of the Vietnamese doctors who came out of Vietnam with the refugees come to Nebraska. We learned from the State Department that there were about 300 doctors at Camp Pendleton, California who were looking for places to go. Generally speaking, these are American or European educated doctors. We thought that there would be a reasonable period of time in which to check into this further and try to find out just how many Nebraska communities might be interested in having any of these doctors. We learned from the State
